Education

Kalinga Institute of Industrial Technology

2023 – 2027

B.Tech in Computer Science and Engineering

Maharishi Vidya Mandir

2020 – 2022

Higher Secondary Education (83.4%)

Holy Cross H.S School

2020

Secondary Education (90.5%)

Projects

- **AI Content & Creator Outreach Automation** (LLM APIs, n8n, Google Sheets, Arcads)
Developed an automated pipeline that analyzes startup ideas, generates marketing scripts using LLM APIs, produces short-form videos via Arcads, and manages targeted creator outreach with automated tracking and follow-ups.
- **NagarMitra – Civic Issue Tracker** (React Native, Node.js, AWS) GitHub
Built a full-stack mobile platform for crowdsourcing and tracking civic issues, featuring real-time status updates, GPS-based reporting, and ward-wise heatmaps to improve transparency and citizen engagement.
- **PashuMitra – AI Farm Management** (React, Node.js, Python, AWS) GitHub
Engineered an AI-driven farm management platform with multilingual support for 26+ Indian languages, integrating real-time disease alerts, cloud analytics, and an AI chatbot for livestock health monitoring.

Skills

- **Languages:** C, C++, Python, JavaScript, HTML, CSS, SQL
- **Tools & Frameworks:** Git, GitHub, VS Code, MySQL, React, n8n, Power BI
- **Cloud & Data:** AWS, Google Cloud Platform, REST APIs, Data Pipelines, Workflow Automation, Cloud Deployment
- **Core Concepts:** DSA, OS, DBMS, OOP, Algorithm Optimization, Complexity Analysis, Competitive Programming, AI Automation, LLM Workflows
- **Soft Skills:** Communication, Teamwork, Leadership, Time Management, Adaptability

Experience

- **AICTE Virtual Internship – Data Engineering with AWS (2025)**
- Completed hands-on training in AWS Data Engineering, developing scalable data pipelines and workflows using AWS services including S3.
- **USC.KIIT – UiPath Student Community (Data Analytics, 2025)**
- Member of UiPath-powered student community endorsed by KIIT T&P Cell; contributed to real-world data analytics projects using UiPath and Python to build automation workflows and generate insights.
- **AI Automation Projects – Industry Mentorship**
- Currently building AI automation systems including creator outreach workflows, LLM-powered content pipelines, and autonomous bots using tools like n8n and API-based AI services.

Achievements

- **Smart India Hackathon (SIH) – PashuMitra (2025)** Pashumitra
- Secured **2nd position** among 550+ teams in the internal round (team of 6) and reached the SIH semi-finals for Problem Statement SIH25006.
- **Pandora's Paradox Hackathon – KIIT E-Summit (2025)** Spendora
- Presented an innovative project and received **Special Team** recognition under industry mentorship.
- **45 Days CodeSprint – USC.KIIT & UiPath (2025)**
- Ranked among the **Top 30** out of nearly 1,000 participants.
- **GoogleXKaggle (2025): Studifyy** Studifyy
- Completed Google × Kaggle 5-Day AI Agents Intensive Workshop, earned Google badge, and successfully built & submitted a project.

Certifications

- **Google Cloud:** Generative AI Learning Path [Verify], Intro to Generative AI [Verify], Intro to Large Language Models [Verify], Responsible AI [Verify], Applying AI Principles [Verify], **GoogleXKaggle** [Verify]
- **AWS:** Data Engineering [View], Cloud Foundations [View],
- **UiPath:** Intro to Agentic Automation [View], Top 30 Sprinter Recognition [View]
- **Infosys Springboard:** Python Foundation [View], Soft Skills [View]
